Subject Index

Acquired Immunodeficiency Syndrome
Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235
Neuropsychological function in physically asymptomatic, HIV-seropositive men. Perry S, Belsky-Barr D, Barr WB, Jacobsberg L. Summer 296–302
Affective Disorders
Cognitive impairments in different stages of Parkinson's disease. Starkstein SE, Bolduc PL, Preziosi TJ, Robinson RG. Summer 243–248
Cognitive side effects of lithium in closed

head injury (letter). Hornstein A, Seliger G. Fall 446–447
Delusions and mood disorders in patients with chronic aphasia. Signer S, Cummings JL, Benson DF. Winter 40–45
Dementia and depression: an evolving enigma (editorial). Cummings JL. Summer 236–242
10-Hydroxynortriptyline and treatment effects in elderly depressed patients. McCue RE, Georgotas A, Suckow RF, Cooper TB. Spring 176–180
Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446
Single photon emission computed tomography (SPECT) with [^{123}I]IMP in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153
Structural brain-imaging findings in affective disorders: an overview. Nasrallah HA, Coffman JA, Olson SC. Winter 21–26
Temporal lobe measurement in primary affective disorder by magnetic resonance imaging. Hauser P, Altshuler LL, Berrettini W, Dauphinais ID, Gelernter J, Post RM. Spring 128–134
White matter hyperintensity on magnetic resonance imaging: clinical and neuroanatomic correlates in the depressed elderly. Coffey CE, Figiel GS, Djang WT, Saunders WB, Weiner RD. Spring 135–144

Aggression
Aggression in epilepsy (neuropsychiatric practice and opinion). Fenwick P. Fall 418–425
Effect of intraventricular nadolol infusion on shock-induced aggression in 6-hydroxydopamine-treated rats. Leavitt ML, Yudofsky SC, Maroon JC, Riley EJ, Bavitz MB. Spring 167–172
Epilepsy and violence: evidence for a neuropsychotic-aggressive syndrome (neuropsychiatric practice and opinion). Otnow Lewis D, Pincus JH. Fall 413–418

Aging
The aging brain. Alavi A. Winter suppl S51–S55
Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60
Predicting two-year mortality in patients with mixed symptoms of depression and dementia using EEG sleep variables. Hoch CC, Reynolds CF, Houck PR, Hall F, Berman SR, Buysse DJ, Dahl RE, Kupfer DJ. Fall 366–371

Alcohol
The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Alcoholism
Reply to Dr. Ricciardi (letter). Modell JG. Summer 340–341

Alzheimer's Disease
The aging brain. Alavi A. Winter suppl S51–S55
The construct validity of the ischemic score of Hachinski for the detection of dementias. Larson DB, Lyons JS, Bareta JC, Burns BJ, Blazer DG, Goldstrom ID. Spring 181–187
Neuropsychologic and biomedical assessment of depression-dementia syndromes. Stoudemire A, Hill C, Gulley LR, Morris R. Fall 347–361
Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60
Single photon emission computed tomography (SPECT) with [^{123}I]IMP in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153

Amantadine
The combination of amantadine and neuroleptics *plus time* may cure tardive dyskinesia (letter). Ankenman R. Winter 96–97

American Board of Psychiatry and Neurology
Defining neuropsychiatry: professional activities and opinions of psychiatrist-neurologists with dual certification. Fogel BS, Schiffer RB. Spring 173–175

Amytal Injection
Emotional behavior after a Wada test in a patient with secondary mania (clinical and research report). Starkstein SE, Berthier ML, Lylyk PL, Casasco A, Robinson RG, Leiguarda R. Fall 408–412

Anorexia Nervosa
Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H,Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20

Antidepressants
Neurophysiologic dysfunction in basal ganglia/limbic striatal and thalamocortical circuits as a pathogenetic mechanism of obsessive-compulsive disorder. Modell JG, Mountz JM, Curtis GC, Greden JF. Winter 27–36
Radiologic correlates of antidepressant-induced delirium: the possible significance of basal-ganglia lesions (clinical and research report). Figiel GS, Krishnan KRR,Breitner JC, Nemeroff CB. Spring 188–190

Antiemetics
The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262

Antipsychotic Drugs
Neuroleptic malignant syndrome associated with basal ganglia hemorrhage (letter). Kellner CH, Melvin JA. Summer 339
Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20
Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15
Return of sense of taste with fluphenazine (letter). Clovis WL. Summer 339–340
Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome (clinical and research report). Stoudemire A, Clayton L. Summer 303–305

Anxiety
The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262

Aphasia
Delusions and mood disorders in patients with chronic aphasia. Signer S, Cummings JL, Benson DF. Winter 40–45

Apomorphine
The effect of apomorphine on regional cerebral blood flow in schizophrenia. Daniel DG, Berman KF, Weinberger DR. Fall 377–384

Basal Ganglia
Neuroleptic malignant syndrome associated with basal ganglia hemorrhage (letter). Kellner CH, Melvin JA. Summer 339
Neurophysiologic dysfunction in basal ganglia/limbic striatal and thalamocortical circuits as a pathogenetic mechanism of obsessive-compulsive disorder. Modell JG, Mountz JM, Curtis GC, Greden JF. Winter 27–36
Radiologic correlates of antidepressant-induced delirium: the possible significance of basal-ganglia lesions (clinical and research report). Figiel GS, Krishnan KRR, Breitner JC, Nemeroff CB. Spring 188–190

Beta Blockers
Effect of intraventricular nadolol infusion on shock-induced aggression in 6-hydroxydopamine-treated rats. Leavitt ML, Yudofsky SC, Maroon JC, Riley EJ, Bavitz MB. Spring 167–172

Bipolar Disorder
Cognitive side effects of lithium in closed head injury (letter). Hornstein A, Seliger G. Fall 446–447

Blood Circulation to the Brain
Brain circulation in mental disorders (letter). Walsh AC. Summer 338–339
Book Reviews
Basic Neurochemistry, 4th ed. Edited by Siegel GJ, Cook EH. Summer 333–335
Brain Imaging: Applications in Psychiatry. Edited by by Andreasen NC. Spring 215–216
Brain Lateralization in Children: Developmental Implications. Edited by Molfese DL, Segalowitz SJ. Spring 216–218
Fundamentals of EEG Technology, vol. 2. By Tyner FS, Knott JR, Mayer WB. Summer 335
Organic Psychiatry—The Psychological Consequences of Cerebral Disorder, 2nd ed. By Lishman WA. Winter 92–93
The Prefrontal Cortex: Anatomy, Physiology, and Neuropsychology of the Frontal Lobe, 2nd ed. By Fuster JM. Summer 335–336
Principles of Medical Psychiatry. Edited by Stoudemire A, Fogel BS. Fall 443–444
Psychological, Neuropsychiatric, and Substance Abuse Aspects of AIDS. Edited by Bridge TP, Mirsky A, Goodwin FK. Winter 92
Receptors and Ligands in Psychiatry. By Sen AK, Lee T. Winter 94–95
Tardive Dyskinesia: Biological Mechanisms and Clinical Aspects. Edited by Wolf ME, Mosnaim AD. Winter 94
The Validity of Psychiatric Diagnosis. Edited by Robins LN, Barrett JE. Fall 441–443
Brain Iron
Brain iron in progressive supranuclear palsy: clinical, magnetic, and neuropathological findings (clinical and research report). Coffey CE, Alston S, Heinz ER, Burger PC. Fall 400–404
Brain Tumor
Methionine transport in brain tumors. O'Tuama LA. Winter suppl S37–S44
Brain-Imaging Techniques
The aging brain. Alavi A. Winter suppl S51–S55
Brain iron in progressive supranuclear palsy: clinical, magnetic, and neuropathological findings (clinical and research report). Coffey CE, Alston S, Heinz ER, Burger PC. Fall
Bullet in the brain: a case of organic psychosis (letter). Ritchie EC, Primelo R, Radke AQ. Fall 448–450
Cerebral blood flow and metabolism measured with oxygen-15 radiotracers. Herscovitch P. Winter suppl S19–S29
Correlation of severity of panic disorder and neuroanatomical changes on magnetic resonance imaging (clinical and research report). Ontiveros A, Fontaine R,Breton G, Elie R, Fontaine S, Dery R. Fall 404–408
Data acquisition, display, and quantification. Links JM. Winter suppl S7–S13
Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235
The effect of apomorphine on regional cerebral blood flow in schizophrenia. Daniel DG, Berman KF, Weinberger DR. Fall 377–384
The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36
Functional and anatomic studies of head injury. Alavi A. Winter suppl S45–S50
Genes, nerve cells, and the remembrance of things past. Kandel ER. Spring 103–125
Identification of mamillary body atrophy in Korsakoff's syndrome using magnetic resonance imaging (letter). Bigler ED, Nelson JE, Schmidt RD. Summer 341–342
Introduction to the conference. Wagner HN. Winter suppl S2–S6
Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446
Methionine transport in brain tumors. O'Tuama LA. Winter suppl S37–S44
Neuropsychological "systems efficiency" and positron emission tomography. Parks RW, Crockett DJ, Tuokko H, Beattie BL, Ashford JW, Coburn KL, Zec RF, Becker RE, McGeer PL, McGeer EG. Summer 269–282
Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60
Radiologic correlates of antidepressant-induced delirium: the possible significance of basal-ganglia lesions (clinical and research report). Figiel GS, Krishnan KRR, Breitner JC, Nemeroff CB. Spring 188–190
Reply to Dr. Cohen (letter). Kohn R, Lilly RB, Sokol MS, Malloy PF. Fall 446
Single photon emission computed tomography (SPECT) with $[^{123}I]IMP$ in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153
Structural brain-imaging findings in affective disorders: an overview. Nasrallah HA, Coffman JA, Olson SC. Winter 21–26
Synthesis of radiotracers. Dannals RF. Winter suppl S14–S18
Temporal lobe measurement in primary affective disorder by magnetic resonance imaging. Hauser P, Altshuler LL, Berrettini W, Dauphinais ID, Gelernter J, Post RM. Spring 128–134
White matter hyperintensity on magnetic resonance imaging: clinical and neuroanatomic correlates in the depressed elderly. Coffey CE, Figiel GS, Djang WT, Saunders WB, Weiner RD. Spring 135–144
Brainstem
Delirium: a subcortical phenomenon? Trzepacz PT, Sclabassi RJ, Van Thiel DH. Summer 283–290
Bulimia
Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20
Buspirone
The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262
Cerebral Atrophy
The aging brain. Alavi A. Winter suppl S51–S55
Choreathetosis
Choreathetosis: a sign of lithium toxicity (clinical and research report). Reed SM, Wise MG, Timmerman I. Winter 57–60
Clinical Abstracts (Basic Neurosciences)
Baraban JM. Summer 326–327; Fall 433–435
Rayport S. Winter 81–84; Spring 207–210; Fall 433–435
Clinical Abstracts (Clinical Laboratory and Diagnostic Testing)
Rosse RB. Winter 89–91; Spring 205–207; Summer 319–321; Fall 438–440
Clinical Abstracts (Clinical Neurology)
Schiffer RB. Winter 84–86; Spring 213–214; Summer 329–330; Fall 437–438
Clinical Abstracts (Clinical Neuropsychiatry)
McAllister TW. Spring 198–200; Fall 428–429
Trzepacz PT. Winter 86–89; Spring 200–202; Summer 321–322; Fall 429–431
Trzepacz PT, McAllister TW. Summer 323–324
Clinical Abstracts (Neuropsychology)
Lovell M. Winter 78–80; Spring 202–204; Summer 327–329; Fall 426–429
Clinical Abstracts (Neurosurgery)
Harbaugh RE. Winter 72–75; Spring 204–205; Summer 331–332; Fall 431–432
Clinical Abstracts (Psychopharmacology)
Silver J. Winter 75–78; Spring 210–212; Summer 324–326; Fall 435–437
Clinical and Research Reports
Brain iron in progressive supranuclear palsy: clinical, magnetic, and neuropathological findings. Coffey CE, Alston S, Heinz ER, Burger PC. Fall 400–404
Causes of organic mood disorder. Rundell JR, Wise MG. Fall 398–400
Choreathetosis: a sign of lithium toxicity.

Reed SM, Wise MG, Timmerman I. Winter 57–60
Clozapine treatment of psychosis in Parkinson's disease. Roberts HE, Dean RC, Stoudemire A. Spring 190–192
Correlation of severity of panic disorder and neuroanatomical changes on magnetic resonance imaging. Ontiveros A, Fontaine R, Breton G, Elie R, Fontaine S, Dery R. Fall 404–408
Emotional behavior after a Wada test in a patient with secondary mania. Starkstein SE, Berthier ML, Lylyk PL, Casasco A, Robinson RG, Leiguarda R. Fall 408–412
Habituation of the startle reflex in posttraumatic stress disorder. Ross RJ, Ball WA, Cohen ME, Silver SM, Morrison AR, Dinges DF. Summer 305–307
Psychiatric presentations of intracranial cysts. Kohn R, Lilly RB, Sokol MS, Malloy PF. Winter 60–66
Radiologic correlates of antidepressant-induced delirium: the possible significance of basal-ganglia lesions. Figiel GS, Krishnan KRR, Breitner JC, Nemeroff CB. Spring 188–190
Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome. Stoudemire A, Clayton L. Summer 303–305

Clozapine

Clozapine treatment of psychosis in Parkinson's disease (clinical and research report). Roberts HE, Dean RC, Stoudemire A. Spring 190–192
Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome (clinical and research report). Stoudemire A, Clayton L. Summer 303–305

Cocaine

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Cognition

Cognitive impairments in different stages of Parkinson's disease. Starkstein SE, Bolduc PL, Preziosi TJ, Robinson RG. Summer 243–248
Cognitive side effects of lithium in closed head injury (letter). Hornstein A, Seliger G. Fall 446–447
Dementia and depression: an evolving enigma (editorial). Cummings JL. Summer 236–242
Dementia of depression among patients with neurological disorders and functional depression. Starkstein SE, Rabins PV, Berthier ML, Cohen BJ, Folstein MF, Robinson RG. Summer 263–268
Neuropsychologic and biomedical assessment of depression and dementia syndromes. Stoudemire A, Hill C, Gulley LR, Morris R. Fall 347–361
Neuropsychological function in physically asymptomatic, HIV-seropositive men. Perry S, Belsky-Barr D, Barr WB, Jacobsberg L. Summer 296–302
Neuropsychological impairments associated with severity of Parkinson's disease. Huber SJ, Freidenberg DL, Shuttleworth EC, Paulson GW, Christy JA. Spring 154–158
Neuropsychological "systems efficiency" and positron emission tomography. Parks RW, Crockett DJ, Tuokko H, Beattie BL, Ashford JW, Coburn KL, Zec RF, Becker RE, McGeer PL, McGeer EG. Summer 269–282

Computerized Tomography

Bullet in the brain: a case of organic psychosis (letter). Ritchie EC, Primelo R, Radke AQ. Fall 448–450
Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235
Functional and anatomic studies of head injury. Alavi A. Winter suppl S45–S50
Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446
Psychiatric presentations of intracranial cysts. Kohn R, Lilly RB, Sokol MS, Malloy PF. Winter 60–66
Reply to Dr. Cohen (letter). Kohn R, Lilly RB, Sokol MS, Malloy PF. Fall 446
Structural brain-imaging findings in affective disorders: an overview. Nasrallah HA, Coffman JA, Olson SC. Winter 21–26

Conversion Disorder

Pseudoseizures: a psychiatric perspective (neuropsychiatric practice and opinion). Roy A. Winter 69–71

Corpus Callosum

Axonal counts of the corpus callosum of schizophrenic patients. Casanova M, Zito M, Bigelow LB, Berthot B, Sanders RD, Kleinman JE. Fall 391–393

Cortex

Delirium: a subcortical phenomenon? Trzepacz PT, Sclabassi RJ, Van Thiel DH. Summer 283–290

Delirium

Delirium: a subcortical phenomenon? Trzepacz PT, Sclabassi RJ, Van Thiel DH. Summer 283–290
Radiologic correlates of antidepressant-induced delirium: the possible significance of basal-ganglia lesions (clinical and research report). Figiel GS, Krishnan KRR, Breitner JC, Nemeroff CB. Spring 188–190

Delusions

Delusions and mood disorders in patients with chronic aphasia. Signer S, Cummings JL, Benson DF. Winter 40–45

Dementia

The aging brain. Alavi A. Winter suppl S51–S55
The construct validity of the ischemic score of Hachinski for the detection of dementias. Larson DB, Lyons JS, Bareta JC, Burns BJ, Blazer DG, Goldstrom ID. Spring 181–187
Dementia and depression: an evolving enigma (letter). Cummings JL. Summer 236–242
Dementia in Parkinson's disease: the problem of clinicopathological correlation. Sudarsky L, Morris J, Romero J, Walshe TM. Spring 159–166
Dementia of depression among patients with neurological disorders and functional depression. Starkstein SE, Rabins PV, Berthier ML, Cohen BJ, Folstein MF, Robinson RG. Summer 263–268
Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235
Neuropsychologic and biomedical assessment of depression-dementia syndromes. Stoudemire A, Hill C, Gulley LR, Morris R. Fall 347–361
Oxiracetam in the treatment of multi-infarct dementia and primary degenerative dementia. Dysken MW, Katz R, Stallone F, Kuskowski M. Summer 249–252
Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60
Predicting mortality in mixed depression and dementia using EEG sleep variables. Hoch CC, Reynolds CF, Houck PR, Hall F, Berman SR, Buysse DJ, Dahl RE, Kupfer DJ. Fall 366–371

Depression

Causes of organic mood disorder (clinical and research report). Rundell JR, Wise MG. Fall 398–400
Cognitive impairments in different stages of Parkinson's disease. Starkstein SE, Bolduc PL, Preziosi TJ, Robinson RG. Summer 243–248
Delusions and mood disorders in patients with chronic aphasia. Signer S, Cummings JL, Benson DF. Winter 40–45
Dementia and depression: an evolving enigma (editorial). Cummings JL. Summer 236–242
Dementia of depression among patients with neurological disorders and functional depression. Starkstein SE, Rabins PV, Berthier ML, Cohen BJ, Folstein MF, Robinson RG. Summer 263–268
Electroencephalography during sleep of patients with panic disorder. Lydiard RB, Zealburg J, Laraia MT, Fossey M, Prockow V, Gross J, Ballenger JC. Fall 372–377
Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446
Neuropsychologic and biomedical assessment of depression-dementia syn-

dromes. Stoudemire A, Hill C, Gulley LR, Morris R. Fall 347–361
Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20
Predicting mortality in mixed depression and dementia using EEG sleep variables. Hoch CC, Reynolds CF, Houck PR, Hall F, Berman SR, Buysse DJ, Dahl RE, Kupfer DJ. Fall 366–371

Diagnostics

Adult-onset Tourettism following closed head injury (letter). Keefover RW, Privite J. Fall 450
DSM-IV, continued (letter). Rundell JR, Wise MG. Summer 337
A proposal for DSM-IV: solving the "organic/nonorganic" problem (editorial). Spitzer RL, Williams JBW, First M, Kendler K. Spring 126–127
Reassessment of state hospital patients diagnosed with schizophrenia. Wilson WH. Fall 394–397
Reply to Dr. Keefover and Mr. Privite (letter). Spitzer RL. Fall 451
Reply to Drs. Rundell and Wise (letter). Spitzer RL, Williams JBW, First MB, Kendler KS. Summer 337–338
Single photon emission computed tomography (SPECT) with [^{123}I]IMP in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153

Dichotic Listening

Regional cerebral blood flow correlates of a dichotic listening task. Coffey CE, Bryden MP, Schroering ES, Wilson WH, Mathew RJ. Winter 46–52

Dihydroxyphenyl Acetic Acid

Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295

DNA Testing

Presymptomatic DNA testing for Huntington's disease (neuropsychiatric practice and opinion). Brandt J, Quaid KA, Folstein SE. Spring 195–197

Dopamine Receptors

Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Dopamine System

The effect of apomorphine on regional cerebral blood flow in schizophrenia. Daniel DG, Berman KF, Weinberger DR. Fall 377–384
Metoclopramide fails to suppress linguopharyngeal events in a rat dyskinesia model. Marco LA, Reed TF, Joshi RS, Aldes LD, Chronister RB. Winter 53–56
Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295
Neuroleptic malignant syndrome associated with basal ganglia hemorrhage (letter). Kellner CH, Melvin JA. Summer 339
Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20

Dopamine-Beta-Hydroxylase

Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295

Drug Abuse

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Editorials

Dementia and depression: an evolving enigma. Cummings JL. Summer 236–242
A proposal for DSM-IV: solving the "organic/nonorganic" problem. Spitzer RL, Williams JBW, First M, Kendler K. Spring 126–127
The reemergence of neuropsychiatry: definition and direction. Yudofsky SC, Hales RE. Winter 1–6
When patients ask...what is neuropsychiatry? Yudofsky SC, Hales RE. Fall 362–365

Electroencephalogram

Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235
The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36
Electroencephalography during sleep of patients with panic disorder. Lydiard RB, Zealburg J, Laraia MT, Fossey M, Prockow V, Gross J, Ballenger JC. Fall 372–376
Predicting two-year mortality in patients with mixed symptoms of depression and dementia using EEG sleep variables. Hoch CC, Reynolds CF, Houck PR, Hall F, Berman SR, Buysse DJ, Dahl RE, Kupfer DJ. Fall 366–371
Psychiatric presentations of intracranial cysts. Kohn R, Lilly RB, Sokol MS, Malloy PF. Winter 60–66

Epilepsy

Aggression in epilepsy (neuropsychiatric practice and opinion). Fenwick P. Fall 418–425
Epilepsy and violence: evidence for a neuropsychotic-aggressive syndrome (neuropsychiatric practice and opinion). Otnow Lewis D, Pincus JH. Fall 413–418
Pseudoseizures: a psychiatric perspective (neuropsychiatric practice and opinion). Roy A. Winter 69–71
Pseudoseizures: differential diagnosis (neuropsychiatric practice and opinion). Theodore WH. Winter 67–69

Evoked Potentials

Delirium: a subcortical phenomenon? Trzepacz PT, Sclabassi RJ, Van Thiel DH. Summer 283–290

Extrapyramidal Side Effects

Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Fluoxetine

The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262
Panic attack precipitated by fluoxetine (letter). Saran A, Halaris A. Spring 219–220

Fluphenazine

Return of sense of taste with fluphenazine (letter). Clovis WL. Summer 339–340

Frontal Lobe

Cognitive impairments in different stages of Parkinson's disease. Starkstein SE, Bolduc PL, Preziosi TJ, Robinson RG. Summer 243–248

Genetics

Genes, nerve cells, and the remembrance of things past. Kandel ER. Spring 103–125
The genetics of narcolepsy (neuropsychiatric practice and opinion). Neely SE. Spring 193–194
Presymptomatic DNA testing for Huntington's disease (neuropsychiatric practice and opinion). Brandt J, Quaid KA, Folstein SE. Spring 195–197

Geriatrics

The construct validity of the ischemic score of Hachinski for the detection of dementias. Larson DB, Lyons JS, Bareta JC, Burns BJ, Blazer DG, Goldstrom ID. Spring 181–187
10-Hydroxynortriptyline and treatment effects in elderly depressed patients. McCue RE, Georgotas A, Suckow RF, Cooper TB. Spring 176–180
Oxiracetam in the treatment of multi-infarct dementia and primary degenerative dementia. Dysken MW, Katz R, Stallone F, Kuskowski M. Summer 249–252
White matter hyperintensity on magnetic resonance imaging: clinical and neuroanatomic correlates in the depressed

elderly. Coffey CE, Figiel GS, Djang WT, Saunders WB, Weiner RD. Spring 135–144

Glucose Metabolism

The aging brain. Alavi A. Winter suppl S51–S55

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60

Graft, Adrenal Medullary

Surgery for Parkinson's disease: is the graft really necessary? (letter) Bracha HS, Metzer WS, Paige SR, Lyden PD, Lohr JB. Fall 447–448

Haloperidol

Neuroleptic malignant syndrome associated with basal ganglia hemorrhage (letter). Kellner CH, Melvin JA. Summer 339

Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome (clinical and research report). Stoudemire A, Clayton L. Summer 303–305

Head Injury

Adult-onset Tourettism following closed head injury (letter). Keefover RW, Privite J. Fall 450

Cognitive side effects of lithium in closed head injury (letter). Hornstein S, Seliger G. Fall 446–447

Functional and anatomic studies of head injury. Alavi A. Winter suppl S45–S50

Reply to Dr. Keefover and Mr. Privite (letter). Spitzer RL. Fall 451

Hearing

Regional cerebral blood flow correlates of a dichotic listening task. Coffey CE, Bryden MP, Schroering ES, Wilson WH, Mathew RJ. Winter 46–52

Homovanillic Acid

Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295

Human Immunodeficiency Virus

Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235

Neuropsychological function in physically asymptomatic, HIV-seropositive men. Perry S, Belsky-Barr D, Barr WB, Jacobsberg L. Summer 296–302

Huntington's Disease

Misdiagnosis of Huntington's disease (letter). Stewart JT. Winter 97

Presymptomatic DNA testing for Huntington's disease (neuropsychiatric practice and opinion). Brandt J, Quaid KA, Folstein SE. Spring 195–197

Interictal Behavior Syndrome

Interictal behavior syndrome in temporal lobe epilepsy: the views of three experts (neuropsychiatric practice and opinion). Bear D, Hermann B, Fogel B. Summer 308–318

Intracranial Cyst

Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446

Psychiatric presentations of intracranial cysts (clinical and research report). Kohn R, Lilly RB, Sokol MS, Malloy PF. Winter 60–66

Reply to Dr. Cohen (letter). Kohn R, Lilly RB, Sokol MS, Malloy PF. Fall 446

Ischemic Score of Hachinski

The construct validity of the ischemic score of Hachinski for the detection of dementias. Larson DB, Lyons JS, Bareta JC, Burns BJ, Blazer DG, Goldstrom ID. Spring 181–187

Korsakoff's Syndrome

Identification of mamillary body atrophy in Korsakoff's syndrome using magnetic resonance imaging (letter). Bigler ED, Nelson JE, Schmidt RD. Summer 341–342

Learning

Genes, nerve cells, and the remembrance of things past. Kandel ER. Spring 103–125

Letters

Adult-onset Tourettism following closed head injury. Keefover RW, Privite J. Fall 450

Brain circulation in mental disorders. Walsh AC. Summer 338–339

Bullet in the brain: a case of organic psychosis Ritchie EC, Primelo R, Radke AQ. Fall 448–450

The combination of amantadine and neuroleptics *plus time* may cure tardive dyskinesia. Ankenman R. Winter 96–97

Cognitive side effects of lithium in closed head injury. Hornstein A, Seliger G. Fall 446–447

DSM-IV, continued. Rundell JR, Wise MG. Summer 337

Identification of mamillary body atrophy in Korsakoff's syndrome using magnetic resonance imaging. Bigler ED, Nelson JE, Schmidt RD. Summer 341–342

Localized neuropsychiatric symptoms of an intracranial cyst. Cohen AJ. Fall 445–446

Misdiagnosis of Huntington's disease. Stewart JT. Winter 97

Neuroleptic malignant syndrome associated with basal ganglia hemorrhage. Kellner CH, Melvin JA. Summer 339

Panic attack precipitated by fluoxetine. Saran A, Halaris A. Spring 219–220

Pathogenesis of obsessive-compulsive disorder. Ricciardi JN. Summer 340

Reply to Dr. Cohen. Kohn R, Lilly RB, Sokol MS, Malloy PF. Fall 446

Reply to Dr. Keefover and Mr. Privite. Spitzer RL. Fall 451

Reply to Mr. Ricciardi. Modell JG. Summer 340–341

Reply to Drs. Rundell and Wise. Spitzer RL, Williams JBW, First MB, Kendler KS. Summer 337–338

Return of sense of taste with fluphenazine. Clovis WL. Summer 339–340

Surgery for Parkinson's disease: is the graft really necessary? Bracha HS, Metzer WS, Paige SR, Lyden PD, Lohr JB. Fall447–448

Lewy Bodies

Dementia in Parkinson's disease: the problem of clinicopathological correlation. Sudarsky L, Morris J, Romero J, Walshe TM. Spring 159–166

Limbic System

Epilepsy and violence: evidence for a neuropsychotic-aggressive syndrome (neuropsychiatric practice and opinion). Otnow Lewis D, Pincus JH. Fall 413–418

Interictal behavior syndrome in temporal lobe epilepsy: the views of three experts (neuropsychiatric practice and opinion). Bear D, Hermann B, Fogel B. Summer 308–318

Neurophysiologic dysfunction in basal ganglia/limbic striatal and thalamocortical circuits as a pathogenetic mechanism of obsessive-compulsive disorder. Modell JG, Mountz JM, Curtis GC, Greden JF. Winter 27–36

Lithium

Choreathetosis: a sign of lithium toxicity (clinical and research report). Reed SM, Wise MG, Timmerman I. Winter 57–60

Cognitive side effects of lithium in closed head injury (letter). Hornstein A, Seliger G. Fall 446–447

Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome (clinical and research report). Stoudemire A, Clayton L. Summer 303–305

Liver Disease

Delirium: a subcortical phenomenon? Trzepacz PT, Sclabassi RJ, Van Thiel DH. Summer 283–290

Magnetic Resonance Imaging

Brain iron in progressive supranuclear palsy: clinical, magnetic, and neuropathological findings (clinical and research report). Coffey CE, Alston S, Heinz ER, Burger PC. Fall 400–404

Correlation of severity of panic disorder and neuroanatomical changes on magnetic resonance imaging (clinical and research report). Ontiveros A, Fontaine R, Breton G, Elie R, Fontaine S, Dery R. Fall 404–408

Early neuropsychological dysfunction caused by human immunodeficiency virus. Marotta R, Perry S. Summer 225–235

Functional and anatomic studies of head injury. Alavi A. Winter suppl S45–S50

Identification of mamillary body atrophy in Korsakoff's syndrome using magnetic resonance imaging (letter). Bigler ED, Nelson JE, Schmidt RD. Summer 341–342
Introduction to the conference. Wagner HN. Winter suppl S2–S6
Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446
Psychiatric presentations of intracranial cysts (clinical and research report). Kohn R, Lilly RB, Sokol MS, Malloy PF. Winter 60–66
Radiologic correlates of antidepressant-induced delirium: the possible significance of basal-ganglia lesions (clinical and research report). Figiel GS, Krishnan KRR, Breitner JC, Nemeroff CB. Spring 188–190
Reply to Dr. Cohen (letter). Kohn R, Lilly RB, Sokol MS, Malloy PF. Fall 446
Structural brain-imaging findings in affective disorders: an overview. Nasrallah HA, Coffman JA, Olson SC. Winter 21–26
Temporal lobe measurement in primary affective disorder by magnetic resonance imaging. Hauser P, Altshuler LL, Berrettini W, Dauphinais ID, Gelernter J, Post RM. Spring 128–134
White matter hyperintensity on magnetic resonance imaging: clinical and neuroanatomic correlates in the depressed elderly. Coffey CE, Figiel GS, Djang WT, Saunders WB, Weiner RD. Spring 135–144

Mamillary Bodies

Identification of mamillary body atrophy in Korsakoff's syndrome using magnetic resonance imaging (letter). Bigler ED, Nelson JE, Schmidt RD. Summer 341–342

Mania

Causes of organic mood disorder (clinical and research report). Rundell JR, Wise MG. Fall 398–400
Emotional behavior after a Wada test in a patient with secondary mania (clinical and research report). Starkstein SE, Berthier ML, Lylyk PL, Casasco A, Robinson RG, Leiguarda R. Fall 408–412

Marijuana

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Memory

Genes, nerve cells, and the remembrance of things past. Kandel ER. Spring 103–125
Neuropsychological impairments associated with severity of Parkinson's disease. Huber SJ, Freidenberg DL, Shuttleworth EC, Paulson GW, Christy JA. Spring 154–158

Methionine

Methionine transport in brain tumors. O'Tuama LA. Winter suppl S37–S44

Metoclopramide

Metoclopramide fails to suppress linguopharyngeal events in a rat dyskinesia model. Marco LA, Reed TF, Joshi RS, Aldes LD, Chronister RB. Winter 53–56

Migraine

The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262

Molindone

Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome (clinical and research report). Stoudemire A, Clayton L. Summer 303–305

Morphine

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Movement Disorders

Choreathetosis: a sign of lithium toxicity (clinical and research report). Reed SM, Wise MG, Timmerman I. Winter 57–60
The combination of amantadine and neuroleptics *plus time* may cure tardive dyskinesia (letter). Ankenman R. Winter 96–97
Metoclopramide fails to suppress linguopharyngeal events in a rat dyskinesia model. Marco LA, Reed TF, Joshi RS, Aldes L, Chronister RB. Winter 53–56
Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295
Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Nadolol

Effect of intraventricular nadolol infusion on shock-induced aggression in 6-hydroxydopamine-treated rats. Leavitt ML, Yudofsky SC, Maroon JC, Riley EJ, Bavitz MB. Spring 167–172

Narcolepsy

The genetics of narcolepsy (neuropsychiatric practice and opinion). Neely SE. Spring 193–194

Neuroleptic Malignant Syndrome

Neuroleptic malignant syndrome associated with basal ganglia hemorrhage (letter). Kellner CH, Melvin JA. Summer 339
Successful use of clozapine in a patient with a history of neuroleptic malignant syndrome (clinical and research report). Stoudemire A, Clayton L. Summer 303–305

Neuroleptics

Clozapine treatment of psychosis in Parkinson's disease (clinical and research report). Roberts HE, Dean RC, Stoudemire A. Spring 190–192
The combination of amantadine and neuroleptics *plus time* may cure tardive dyskinesia (letter). Ankenman R. Winter 96–97
Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Neuropsychiatric Practice and Opinion

Aggression in epilepsy. Fenwick P. Fall 418–425
Epilepsy and violence: evidence for a neuropsychotic-aggressive syndrome. Otnow Lewis D, Pincus JH. Fall 413–418
The genetics of narcolepsy. Neely SE. Spring 193–194
Presymptomatic DNA testing for Huntington's disease. Brandt J, Quaid KA, Folstein SE. Spring 195–197
Pseudoseizures: a psychiatric perspective. Roy A. Winter 69–71
Pseudoseizures: differential diagnosis. Theodore WH. Winter 67–69

Neuropsychiatry, Growth of

Defining neuropsychiatry: professional activities and opinions of psychiatrist-neurologists with dual certification. Fogel BS, Schiffer RB. Spring 173–175
The reemergence of neuropsychiatry: definition and direction (editorial). Yudofsky SC, Hales RE. Winter 1–6
When patients ask . . . what is neuropsychiatry? (editorial). Yudofsky SC, Hales RE. Fall 362–365

Neurotensin

Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20

Nicotine

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Norepinephrine

Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295

Nortriptyline

10-Hydroxynortriptyline and treatment effects in elderly depressed patients. McCue RE, Georgotas A, Suckow RF, Cooper TB. Spring 176–180

Nucleus of Meynert

Dementia in Parkinson's disease: the problem of clinicopathological correlation. Sudarsky L, Morris J, Romero J, Walshe TM. Spring 159–166

Obsessive-Compulsive Disorder

INDEX

The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262

Neurophysiologic dysfunction in basal ganglia/limbic striatal and thalamocortical circuits as a pathogenetic mechanism of obsessive-compulsive disorder. Modell JG, Mountz JM, Curtis GC, Greden JF. Winter 27–36

Pathogenesis of obsessive-compulsive disorder (letter). Ricciardi JN. Summer 340

Reply to Mr. Ricciardi (letter). Modell JG. Summer 340–341

Opiates

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Oral Dyskinesias

Metoclopramide fails to suppress linguopharyngeal events in a rat dyskinesia model. Marco LA, Reed TF, Joshi RS, Aldes LD, Chronister RB. Winter 53–56

Organic Mental Disorders

Bullet in the brain: a case of organic psychosis (letter). Ritchie EC, Primelo R, Radke AQ. Fall 448–450

A proposal for DSM-IV: solving the "organic/nonorganic" problem (editorial). Spitzer RL, Williams JBW, First M, Kendler K. Spring 126–127

Organic Mood Disorder

Causes of organic mood disorder (clinical and research report). Rundell JR, Wise MG. Fall 398–400

Oxiracetam

Oxiracetam in the treatment of multi-infarct dementia and primary degenerative dementia. Dysken MW, Katz R, Stallone F, Kuskowski M. Summer 249–252

Panic Disorder

The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262

Correlation of severity of panic disorder and neuroanatomical changes on magnetic resonance imaging (clinical and research report). Ontiveros A, Fontaine R, Breton G, Elie R, Fontaine S, Dery R. Fall 404–408

Electroencephalography during sleep of patients with panic disorder. Lydiard RB, Zealburg J, Laraia MT, Fossey M, Prockow V, Gross J, Ballenger JC. Fall 372–377

Reply to Dr. Cohen (letter). Kohn R, Lilly RB, Sokol MS, Malloy PF. Fall 446

Parkinson's Disease

Clozapine treatment of psychosis in Parkinson's disease (clinical and research report). Roberts HE, Dean RC, Stoudemire A. Spring 190–192

Cognitive impairments in different stages of Parkinson's disease. Starkstein SE, Bolduc PL, Preziosi TJ, Robinson RG. Summer 243–248

Dementia in Parkinson's disease: the problem of clinicopathological correlation. Sudarsky L, Morris J, Romero J, Walshe TM. Spring 159–166

Dementia of depression among patients with neurological disorders and functional depression. Starkstein SE, Rabins PV, Berthier ML, Cohen BJ, Folstein MF, Robinson RG. Summer 263–268

Neuropsychological impairments associated with severity of Parkinson's disease. Huber SJ, Freidenberg DL, Shuttleworth EC, Paulson GW, Christy JA. Spring 154–158

Surgery for Parkinson's disease: is the graft really necessary? (letter). Bracha HS, Metzer WS, Paige SR, Lyden PD, Lohr JB. Fall 447–448

Parkinsonian Symptoms

Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Phencyclidine

Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Phenylacetic Acid

High phenylacetic acid differentiates schizoaffective from schizophrenic patients. Sabelli HC, Durai UNB, Fawcett J, Javaid JI. Winter 37–39

Positron Emission Tomography

The aging brain. Alavi A. Winter suppl S51–S55

Cerebral blood flow and metabolism measured with oxygen-15 radiotracers. Herscovitch P. Winter suppl S19–S29

Data acquisition, display, and quantification. Links JM. Winter suppl S7–S13

The effects of drug abuse on glucose metabolism. London ED. Winter suppl S30–S36

Functional and anatomic studies of head injury. Alavi A. Winter suppl S45–S50

Introduction to the conference. Wagner HN. Winter suppl S2–S6

Methionine transport in brain tumors. O'Tuama LA. Winter suppl S37–S44

Neuropsychological "systems efficiency" and positron emission tomography. Parks RW, Crockett DJ, Tuokko H, Beattie BL, Ashford JW, Coburn KL, Zec RF, Becker RF, McGeer PL, McGeer EG. Summer 269–282

Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60

Synthesis of radiotracers. Dannals RF. Winter suppl S14–S18

Posttraumatic Stress Disorder

Habituation of the startle reflex in posttraumatic stress disorder (clinical and research report). Ross RJ, Ball WA, Cohen ME, Silver SM, Morrison AR, Dinges DF. Summer 305–307

Premenstrual Syndrome

Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20

Probenecid

Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20

Prolactin

Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295

Pseudodementia

Neuropsychologic and biomedical assessment of depression-dementia syndromes. Stoudemire A, Hill C, Gulley LR, Morris R. Fall 347–361

Predicting mortality in mixed depression and dementia using EEG sleep variables. Hoch CC, Reynolds CF, Houck PR, Hall F, Berman SR, Buysse DJ, Dahl RE, Kupfer DJ. Fall 366–371

Pseudoseizures

Pseudoseizures: a psychiatric perspective (neuropsychiatric practice and opinion). Roy A. Winter 69–71

Pseudoseizures: differential diagnosis (neuropsychiatric practice and opinion). Theodore WH. Winter 67–69

Psychiatrist-Neurologists

Defining neuropsychiatry: professional activities and opinions of psychiatrist-neurologists with dual certification. Fogel BS, Schiffer RB. Spring 173–175

Radiotracers

Cerebral blood flow and metabolism measured with oxygen-15 radiotracers. Herscovitch P. Winter suppl S19–S29

Synthesis of radiotracers. Dannals RF. Winter suppl S14–S18

Regional Cerebral Blood Flow

The aging brain. Alavi A. Winter suppl S51–S55

Cerebral blood flow and metabolism measured with oxygen-15 radiotracers. Herscovitch P. Winter suppl S19–S29

The effect of apomorphine on regional cerebral blood flow in schizophrenia.

Daniel DG, Berman KF, Weinberger DR. Fall 377–384
Functional and anatomic studies of head injury. Alavi A. Winter suppl S45–S50
Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60
Regional cerebral blood flow correlates of a dichotic listening task. Coffey CE, Bryden MP, Schroering ES, Wilson WH, Mathew RJ. Winter 46–52
Single photon emission computed tomography (SPECT) with [^{123}I]IMP in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153

Schizoaffective Disorder
High phenylacetic acid differentiates schizoaffective from schizophrenic patients. Sabelli HC, Durai UNB, Fawcett J, Javaid JI. Winter 37–39

Schizophrenia
Abnormalities of the septum pellucidum in schizophrenia. George MS, Scott T, Kellner CH, Malcolm R. Fall 385–390
Axonal counts of the corpus callosum of schizophrenic patients. Casanova M, Zito M, Bigelow LB, Berthot B, Sanders RD, Kleinman JE. Fall 391–393
The effect of apomorphine on regional cerebral blood flow in schizophrenia. Daniel DG, Berman KF, Weinberger DR. Fall 377–384
High phenylacetic acid differentiates schizoaffective from schizophrenic patients. Sabelli HC, Durai UNB, Fawcett J, Javaid JI. Winter 37–39
Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295
Neurotensin-like immunoreactivity in cerebrospinal fluid of patients with schizophrenia, depression, anorexia nervosa-bulimia, and premenstrual syndrome. Nemeroff CB, Bissette G, Widerlov E, Beckmann H, Gerner R, Manberg PJ, Lindstrom L, Prange AJ, Gattaz WF. Winter 16–20
Reassessment of state hospital patients diagnosed with schizophrenia. Wilson WH. Fall 394–397
Single photon emission computed tomography (SPECT) with [^{123}I]IMP in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153

Seizures
Localized neuropsychiatric symptoms of an intracranial cyst (letter). Cohen AJ. Fall 445–446
Pseudoseizures: a psychiatric perspective (neuropsychiatric practice and opinion). Roy A. Winter 69–71
Pseudoseizures: differential diagnosis (neuropsychiatric practice and opinion). Theodore WH. Winter 67–69

Septum Pellucidum
Abnormalities of the septum pellucidum in schizophrenia. George MS, Scott T, Kellner CH, Malcolm R. Fall 385–390

Serotonergic System
The clinical utility of pharmacological agents that act at serotonin receptors. Peroutka SJ, Sleight AJ, McCarthy BG, Pierce PA, Schmidt AW, Hekmatpanah CR. Summer 253–262
Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295
Neurophysiologic dysfunction in basal ganglia/limbic striatal and thalamocortical circuits as a pathogenetic mechanism of obsessive-compulsive disorder. Modell JG, Mountz JM, Curtis GC, Greden JF. Winter 27–36
Panic attack precipitated by fluoxetine (letter). Saran A, Halaris A. Spring 219–220
Pathogenesis of obsessive-compulsive disorder (letter). Ricciardi JN. Summer 340
Reply to Dr. Ricciardi (letter). Modell JG. Summer 340–341

Shock
Effect of intraventricular nadolol infusion on shock-induced aggression in 6-hydroxydopamine-treated rats. Leavitt ML, Yudofsky SC, Maroon JC, Riley EJ, Bavitz MB. Spring 167–172

Sigma Receptors
Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Single Photon Emission Computed Tomography
Introduction to the conference. Wagner HN. Winter suppl S2–S6
Positron imaging in dementing illnesses. Friedland RP. Winter suppl S56–S60
Single photon emission computed tomography (SPECT) with [^{123}I]IMP in the differential diagnosis of psychiatric disorders. O'Connell RA, Van Heertum RL, Billick SB, Holt AR, Gonzalez A, Notardonato H, Luck D, King LN. Spring 145–153

Sleep
Electroencephalography during sleep of patients with panic disorder. Lydiard RB, Zealburg J, Laraia MT, Fossey M, Prockow V, Gross J, Ballenger JC. Fall 372–377
Predicting mortality in mixed depression and dementia using EEG sleep variables. Hoch CC, Reynolds CF, Houck PR, Hall F, Berman SR, Buysse DJ, Dahl RE, Kupfer DJ. Fall 366–371

Sleep Disorders
The genetics of narcolepsy (neuropsychiatric practice and opinion). Neely SE. Spring 193–194

Startle Response
Habituation of the startle reflex in posttraumatic stress disorder (clinical and research report). Ross RJ, Ball WA, Cohen ME, Silver SM, Morrison AR, Dinges DF. Summer 305–307

Stroke
Dementia of depression among patients with neurological disorders and functional depression. Starkstein SE, Rabins PV, Berthier ML, Cohen BJ, Folstein MF, Robinson RG. Summer 263–268

Substantia Nigra
Dementia in Parkinson's disease: the problem of clinicopathological correlation. Sudarsky L, Morris J, Romero J, Walshe TM. Spring 159–166

Supranuclear Palsy
Brain iron in progressive supranuclear palsy: clinical, magnetic, and neuropathological findings (clinical and research report). Coffey CE, Alston S, Heinz ER, Burger PC. Fall 400–404

Tardive Dyskinesia
The combination of amantadine and neuroleptics *plus time* may cure tardive dyskinesia (letter). Ankenman R. Winter 96–97
Metoclopramide fails to suppress linguopharyngeal events in a rat dyskinesia model. Marco LA, Reed TF, Joshi RS, Aldes LD, Chronister RB. Winter 53–56
Multivariate analysis of monoamine indices in patients with chronic schizophrenia. Frecska E, Bagdy G, Perenyi A, Arato M, Degrell I, Mogyorosy Z. Summer 291–295
Receptor mechanisms in antipsychotic drug action: focus on sigma receptors. Snyder SH, Largent BL. Winter 7–15

Taste
Return of sense of taste with fluphenazine (letter). Clovis WL. Summer 339–340

Temporal Lobe
Correlation of severity of panic disorder and neuroanatomical changes on magnetic resonance imaging (clinical and research report). Ontiveros A, Fontaine R, Breton G, Elie R, Fontaine S, Dery R. Fall 404–408
Regional cerebral blood flow correlates of a dichotic listening task. Coffey CE, Bryden MP, Schroering ES, Wilson WH, Mathew RJ. Winter 46–52
Temporal lobe measurement in primary affective disorder by magnetic resonance imaging. Hauser P, Altshuler LL, Berrettini W, Dauphinais ID, Gelernter J, Post RM. Spring 128–134

Temporal Lobe Epilepsy
Interictal behavior syndrome in temporal

lobe epilepsy: the views of three experts (neuropsychiatric practice and opinion). Bear D, Hermann B, Fogel B. Summer 308–318

Tourette's Syndrome

Adult-onset Tourettism following closed head injury (letter). Keefover RW, Privite J. Fall 450

Reply to Dr. Keefover and Mr. Privite (letter). Spitzer RL. Fall 451

Visuospatial Functioning

Neuropsychological impairments associated with severity of Parkinson's disease. Huber SJ, Freidenberg DL, Shuttleworth EC, Paulson GW, Christy JA. Spring 154–158

Wada Test

Emotional behavior after a Wada test in a patient with secondary mania (clinical and research report). Starkstein SE, Berthier ML, Lylyk PL, Casasco A, Robinson RG, Leiguarda R. Fall 498–412

Wernicke's Encephalopathy

Identification of mamillary body atrophy in Korsakoff's syndrome using magnetic resonance imaging (letter). Bigler ED, Nelson JE, Schmidt RD. Summer 341–342

White Matter Hyperintensity

White matter hyperintensity on magnetic resonance imaging: clinical and neuroanatomic correlates in the depressed elderly. Coffey CE, Figiel GS, Djang WT, Saunders WB, Weiner RD. Spring 135–144
